EVA Systems

DIGITAL SYSTEMS · OPERATIONS · TECHNOLOGY DELIVERY

EVA Systems LLC is a founder-led technology and operations consulting firm based in Tacoma, Washington. The firm is positioned to support government agencies, prime contractors, and mission-driven organizations with systems implementation, workflow modernization, digital strategy, and practical technology delivery. While EVA Systems is a new entity, its delivery model is grounded in prior federal, defense, public-sector, enterprise, and complex software delivery experience.

TEAMING Prime Contractors

BACKGROUND

Company Overview

EVA Systems LLC helps public-sector, prime contractor, and mission-driven teams address the operational bottlenecks that slow modernization: fragmented workflows, underused systems, unclear ownership, and gaps between strategy and execution.

Although EVA Systems is newly established as a contracting entity, its capabilities are built on founder experience across federal, defense, public-sector, enterprise, and consulting environments. The firm's delivery model combines founder-led oversight with a vetted network of engineers, designers, architects, and technical specialists who have supported complex digital products, systems implementation, workflow modernization, and technology-enabled transformation initiatives.

EVA Systems brings practical execution, stakeholder alignment, and disciplined delivery oversight to modernization efforts that require both operational understanding and technical coordination.

CAPABILITIES

Core Capabilities

Modernization & Operations

- Workflow analysis & process redesign
- Operational assessments & modernization roadmaps
- Change management & adoption readiness

Systems, Data & Integration

- Systems implementation & user adoption
- API integration & interoperability support
- Data readiness, governance & workflow automation

Digital Delivery & Enablement

- UX-informed digital service delivery
- Program management & PMO support
- AI-enabled workflow support & automation readiness

DELIVERY WORKFLOW

FOUNDER PAST PERFORMANCE

Relevant Experience & *Background*

The following reflects founder experience and delivery exposure that inform EVA Systems' capability foundation. While EVA Systems is newly established as an entity, its approach is grounded in complex federal, defense, public-sector, enterprise, and consulting environments where stakeholder alignment, technical coordination, adoption, and disciplined delivery are critical.

FEDERAL · DOD

Defense Health Agency

Federal Health Technology Delivery

Contributed to web and mobile technology delivery in a federal health environment, supporting digital product execution where stakeholder coordination, security expectations, compliance awareness, and user-centered delivery were essential to operating within a Department of Defense context.

FEDERAL · FIELD OPS

U.S. Census Bureau

Public-Sector Field Operations & Stakeholder Engagement

Coordinated regional partnership and field operations across multiple Washington counties, working with local governments, tribal governments, municipalities, and community organizations.

FEDERAL · DOD

U.S. Air Force & U.S. Army

Operational Coordination & Mission Support

Supported operational coordination, program execution, and technology-enabled process improvement across military and defense environments.

ENTERPRISE · SOFTWARE

Amazon & Enterprise Consulting

Enterprise Software Delivery & Digital Transformation

Contributed to customer-facing and internal software delivery across enterprise and consulting environments, including discovery, solution design, delivery coordination, and deployment.

WHY EVA SYSTEMS

Why *EVA Systems*

- Founder-led accountability from discovery through delivery
- Experience across federal, defense, public-sector, enterprise, and consulting environments
- Complex project background spanning digital products, systems implementation, and modernization
- Modernization focused on adoption, usability, operational impact, and execution
- Flexible delivery model with vetted engineering, design, architecture, and technical PM support

DELIVERY MODEL

Founder-Led Oversight	Discovery, client communication, delivery coordination, and quality control
Vetted Delivery Network	Engineers, designers, architects, and technical PMs aligned to project scope
Complex Project Support	Digital products, systems implementation, workflow modernization, and operational transformation
Local + Near-Shore Capacity	Flexible specialist support based on scope, security requirements, and delivery needs

TEAMING & CONTACT

Teaming & *Contact*

EVA Systems is available for prime contractor teaming, subcontracting, operational consulting, digital modernization, and systems implementation support.
